Robert C. White
P.O. Box 190
Hillsboro, IL 62049

Dear Mr. White:

The Illinois Environmental Protection Agency (IEPA) intends to conduct a groundwater investigation in the Nokomis area on April 10, 1989. During the course of this investigation the IEPA wishes to collect a sample of groundwater from the well on the Randall property.

With your permission, Agency personnel would enter the property on the morning of April 10, 1989 and meet with Mr. Huber to inform him of our presence and intentions. The IEPA personnel would then proceed to the Randall home and open the outside faucet to begin flushing the water from the holding tank. Once this was accomplished a water sample of approximately five to six gallons would be taken for Agency analysis.

The cost of the water sample analysis, approximately \$1500, would be entirely paid for by the IEPA. The results of this analysis would be made available to you within 60 days from the date the sample was taken.

Please feel free to contact me at 217/782-6760 if you have any questions regarding this letter or the specifics of our Agency sampling procedures.

Sincerely,

Gary L. Reside
